

Table Listing NYC “First Responder” Accounts Of FDNY and EMS Personnel With Redactions

Compiled by Andrew Johnson (ad.johnson@ntlworld.com) using a provisional list supplied by Dr. Judy Wood

Feb 2008

This list of accounts was downloaded from links on this page:

http://graphics8.nytimes.com/packages/html/nyregion/20050812_WTC_GRAPHIC/met_WTC_histories_full_01.html

Below, those accounts with any redacted portions are listed. In a few cases, it appears that only 1 or 2 names are redacted, to protect the identity of those people. In other cases, interesting segments are redacted and in additional cases, whole pages are redacted. Accounts with a significant amount of redaction are indicated in red. The “Notes” column indicates what is being discussed near the time of the redaction.

This document can be taken as “pointer” for further study, based on the notes and right hand two columns. The right most column indicates where witnesses appeared to be discussing something about a plane impact where the redaction is found.

Totals: 102 Accounts with Redactions, 47 may merit further study, 4 of those are related accounts of the plane impact or debris.
